

“Dusty”

7 or 8 Year old - 15 H.H. grey Appendix - QH. type gelding (not registered)

About 4 years ago I started Dusty under saddle, he was very easy to start and has never bucked.

After that the owner used him as a pack horse in the mountains for a few years.

Dusty became one of our herd in October 2011 and has been ridden since than.

He is a very calm easygoing horse who walks out nice in the arena as well as on the trail.

Dusty has a beautiful swinging trot and would make a fancy English horse.

He would be very suitable for a lady's or youth mount because of his soft & honest personality.

Dusty was raised in a large herd of horses with many acres to run around and grow up naturally. He tries to get along with the other horses and is non aggressive towards them.

Dusty ties, loads and trailers well, hobbles, high-lines etc. he's been good in traffic and to this day I've not seen him shy.

His Price is \$ 3200 and will go up by the end of March 2012
